NEWS RELEASE

FOR IMMEDIATE RELEASE – January 2, 2024

GatorBar® Grip™ – The New Name in Sliver-free Composite Rebar!

AHMEEK, Michigan -- [GatorBar](#), the industry leading composite rebar manufacturer for concrete reinforcement, is excited to announce the release of GatorBar with Grip technology. GatorBar Grip is the latest generation of composite rebar offering zero slivers and increased bond strength. GatorBar Grip is immediately available through its wholesale, distribution and installation partners.

GatorBar CEO Erik Kiilunen said, “We heard you...sliverless is very important and we delivered. Frankly, this took longer to bring to the market than we anticipated, so we sincerely appreciate our customers’ patience, but GatorBar Grip is now available. It’s the same reliable bar but with vastly improved handling and tying characteristics as well as better bond strength. Grip represents GatorBar’s continued investment in concrete reinforcement technology while remaining the most economical, highest quality composite available meeting ICC structural requirements.”

GatorBar is an industry changing, glass fiber reinforced composite rebar (GFRP), that is 100% made in the USA using 100% USA made materials. GatorBar offers:

- The most economical non-polyester composite rebar on the market.
- Pricing comparable to or better than steel with increased strength and performance.
- Significantly increased installation, labor and transportation advantages.
- 2x stronger in tensile strength than steel.
- 4x lighter in weight than steel.
- Zero slivers and increased bond strength.
- Zero rust.

About GatorBar: Ahmeek, MI based [GatorBar](#) is “100% Made in the USA” composite rebar. GatorBar’s manufacturing processes, custom production lines, control systems and technologies were designed and constructed from scratch using the know-how, ingenuity, tenacity and determination of American trained and experienced engineers, designers, fabricators and service companies. GatorBar unapologetically bootstrapped itself into a product segment where no one had gone before and became what it is today...America’s Rebar.
